Before every wedding comes a love story. This is your chance to document the story of how you met, fell in love, got engaged, and where you are today. This short film feature is ideal for sharing with family and even future kiddos! (Imagine if you could look back at a video like this of your own parents!) These 12-15 minute films run the gamut of emotions; from happy tears, to romance, and definitely all the laughter. We will collaborate to choose a beautiful and meaningful location for filming.
